## Unit standards for Single-Phase Tester (Single-phase domestic installations)

### Test, inspect and complete a certificate of compliance for a single-phase domestic installation

- Test and inspect a single-phase domestic installation (Unit Standard No. 258966)
- Complete certificate of compliance for a single-phase domestic installation (Unit Standard No. 113898)

**Next training course dates:** Refer to course calendar on the web page [www.pandttechnology.co.za](http://www.pandttechnology.co.za)

To check if you meet the criteria please refer to the Department of labour document on the following link:  
<http://pandttechnology.co.za/wp-content/uploads/2011/03/Information-brochure-for-application-of-registered-persons-March-2014.pdf>

The training program is at our training centre at 141 Lamp Road, Wadeville, Germiston where relevant tools, processes and criteria will be demonstrated and provided.

Our programs are developed in such a way as to allow you to meet the requirements of the Department of Labour, in terms of accreditation application as well as to provide you with the necessary tools and expertise to confidently go out and inspect and test electrical installations using the knowledge and recourses available to you.

After successful completion of the assessment you will receive documentary proof of successful completed unit standards of inspection, testing and certification of the relevant assessment as required by the Energy Sector Education and Training Authority (ESETA).

Department of Labour Accreditation as determined by the ESETA require by P and T Technology to ensure competence for assessments above. Documentary proof of your process and documents used by you to inspect, test and certify any of the above type of electrical installation is a **prerequisite** for assessment process.

The assessment for competence as required will be conducted after you have collected all evidence. The assessment process will include

- Evaluation of previous coached or self-inspection and testing tests conducted by you.
- A knowledge evaluation of applicable codes or standards.
- An on site assessment to establish competence in inspection and testing and evidence recording.
- The completion of the supporting documentation of on site assessment.
- Completion of a Certificate of Compliance.
- Feedback and certification and ESETA communication.

### Target audience

- Electricians working in domestic installations
- Maintenance electricians in domestic market
- Electricians who issue Certificates of Compliance (CoC) on domestic single phase installations
- Electricians requiring assessments for Department of Labour accreditation application
- Electricians wanting to upgrade their knowledge of inspection and testing electrical installations.

### Pre-requisites

Knowledge of SANS 10142-1 and relevant codes of practice linked to single phase domestic installations would be an advantage as this course applies the codes and practices

### **Purpose of program**

To equip delegates with knowledge, skills and information to interpret codes, standards and legislation and thereby enabling them to conduct and record valid detail during single phase electrical installations inspections and tests

### **.Contents**

- Applicable Occupational Health and Safety Act 85.1993 legislation
- Identification and assessment of area to be inspected.
- Meter boards and main incomer and protections
- Main and sub boards
- Cables, wireways and protection
- Recording of results and inspection report
- Tests to be conducted and interpreting readings
- Client reports and final inspections.
- Assessment preparation for delegates requiring competence assessment

### **Training methodology used during course**

- Interactive participative presentation
- Practical use of documentation and instruments will be done during course
- Programs are limited to a maximum of 16 delegates in order to allow delegate participation

### **Course documentation provide**

- Occupational Health and Safety Act 85.1993 booklet
- Support material

### **Course documentation NOT provided**

- SANS 10142-1 code of wiring

The SANS 10142-1 will not automatically be provided as part of the course training. Should you wish us to provide this code you will need to order it when enrolling for the course. The SANS 10142-1 can be purchased from SABS in Pretoria or via their web page on <https://store.sabs.co.za/catalog/>

### **TO BRING WITH TO THE COURSE**

You will need to bring the latest version of the SANS 10142-1 with you to the course.

**Course duration:-** 3 days (8:30 to 16:15)

### **Refreshments**

Tea/coffee and lunches provide for all day courses

No refreshments will be provided for assessment days

### **Certificates**

All delegates assessed competent will receive a certificate and a ESETA statement of results

### **Assessment criteria**

The assessment for competence as required will be conducted after you have collected all evidence. The assessment process will include:-

- Evaluation of previous coached or self-inspection and testing tests conducted by you.
- A knowledge evaluation of applicable codes or standards.
- An onsite assessment to establish competence in inspection and testing and evidence recording. (This date will be allocated to the delegate during the duration of the course and **cannot be changed**)
- The assessment is treated as a NATIONAL EXAM where applicable and cannot be cancelled.
- All **re-assessments and cancelled assessments** will be levied at a cost of **45% of the course fee** and no negotiations will be entered into.
- The completion of the supporting documentation of on site assessment.
- Completion of a Certificate of Compliance.
- Feedback and certification and ESETA communication.
